

UNDERSTAND WILDFIRE

In 2022, a total of **1,642 wildfires** burned **869,279 hectares** of land across Canada, forcing mass evacuations and causing catastrophic destruction
(Aziz Globalnews.ca, 2022)

Temperature

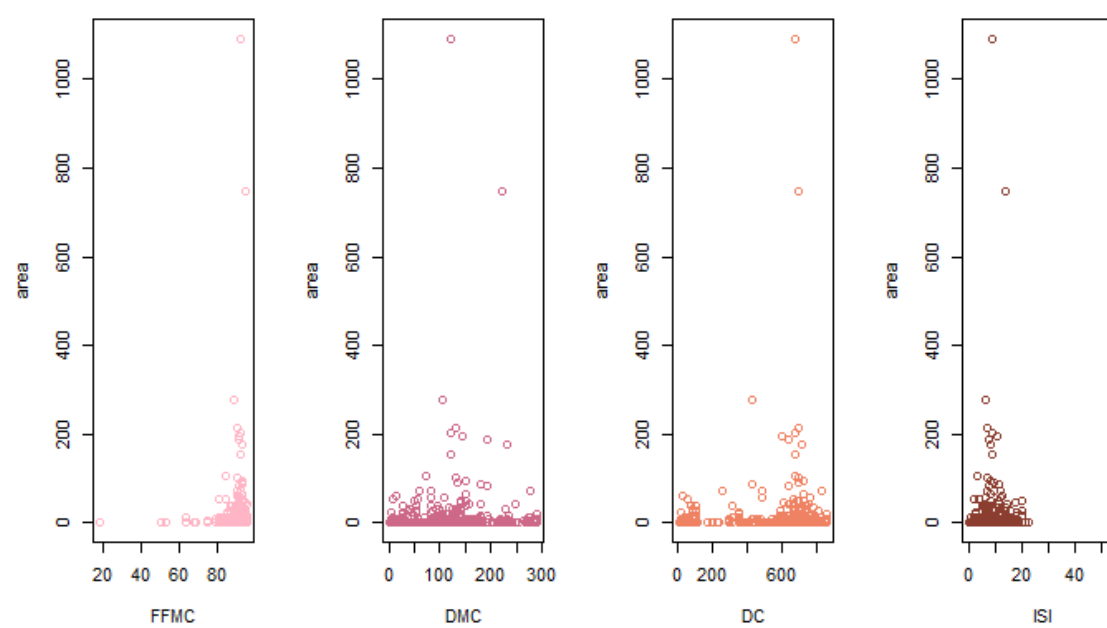

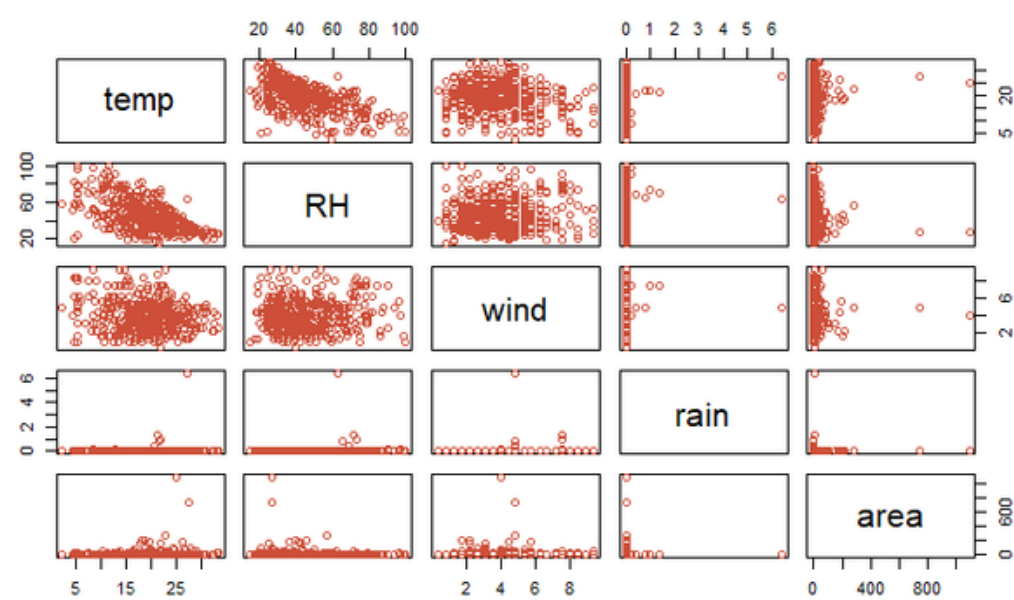

Humidity

Rain

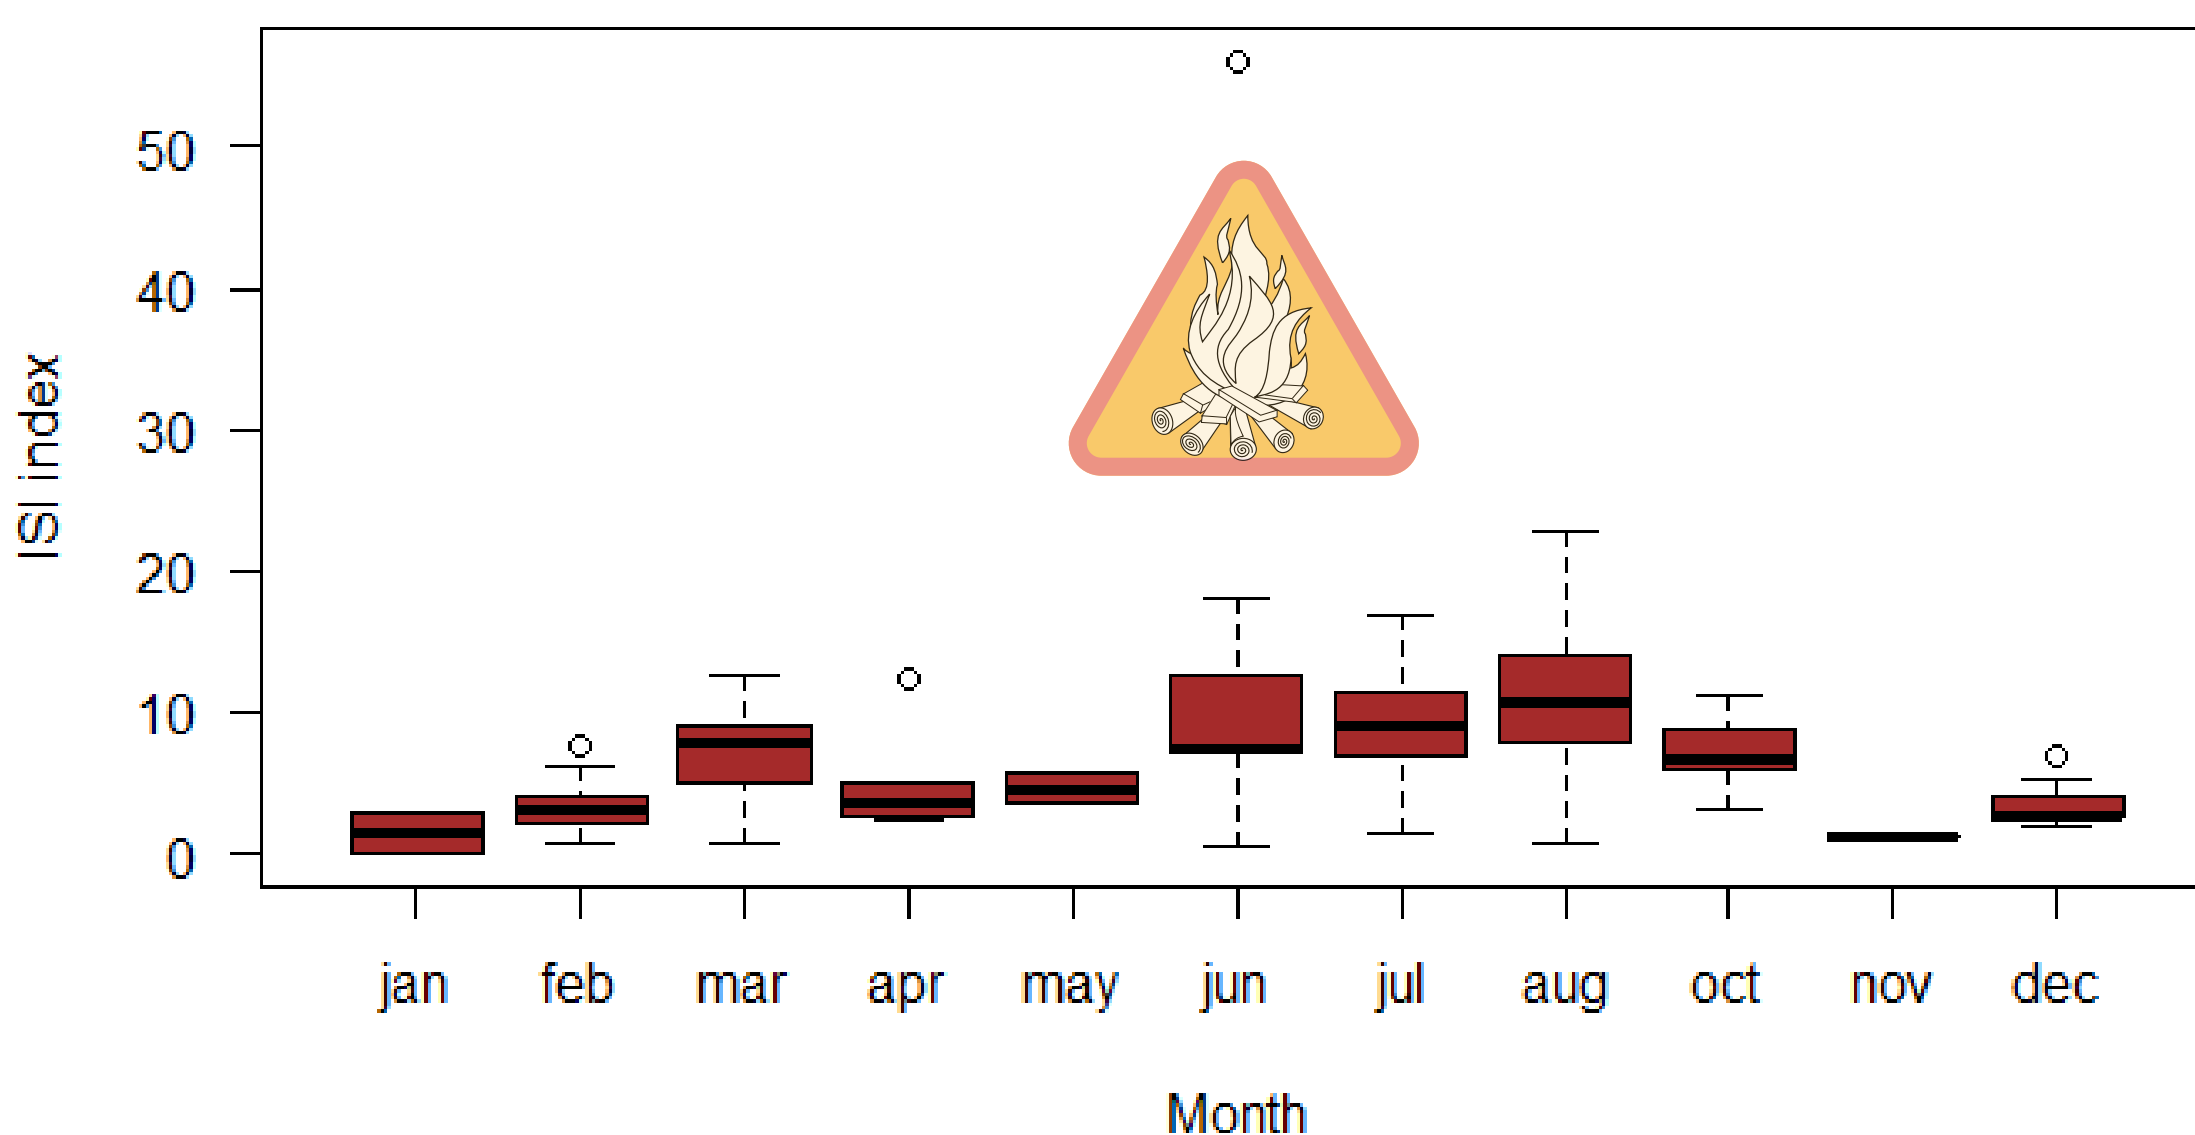

Wind

Experts have demonstrated that **none** of these elements **singularly** were the causes.

BUT TOGETHER, THEY GREATLY AFFECT WILDFIRE !

During **summer**, a small fire can quickly **escalate** into a large one. **PAY ATTENTION TO YOUR CAMPFIRE!**

**BE AWARE AND
STAY SAFE!**
